

# For you, your partner and peace of mind

Get tested quickly, safely, and discreetly.

Your Teladoc service provides a more convenient option to getting tested for STDs. It allows you to skip the trip to a doctor's office and go straight to a testing location.

Note: Many STDs are preventable and some are curable.

To ensure privacy, your results will never be saved into your member history.

**Get peace of mind. Get tested today.**
